

Swiss Oncology and Hematology Congress

June 27 - 29, 2018
Zurich, Switzerland

Scientific Programme

Thursday, 28 June 2018

NSK
13:10 - 14:40

Sheraton, Hardturm 1

NSK

Chair: Michael Röthlisberger, Bern

The Swiss National Cancer Plan (Nationale Strategie gegen Krebs NSK / Stratégie national contre le cancer SNC) directs a focus on the development of Tumor Boards (Project 3.3, see www.nsk-krebsstrategie.ch). While there exist vast numbers of various tumor boards in Switzerland, there are no binding minimal standards with regards to structure, cast or procedures. This leads to differences in quality amongst the different Tumor Boards. In this session we will discuss aspects such as minimal standards, but also exchange formats and other topics relevant to Tumor Board quality. After short inputs by the discussants, everybody is welcome to join the discussion.

Perspective Oncosuisse (7', Speaker: Jakob Passweg, Basel)

Perspective Quality Certification (7', Speaker: Tanja Volm, Kreuzlingen)

Perspective Cancer Registration (7', Speaker: Martin Adam, Aarau)

Perspective Oncology/Hospital (7', Speaker: Stefan Aebi, Luzern)

Presenter of the Discussion (60', Speaker: Michael Röthlisberger, Bern)
